

**Remarks/Arguments:**

The above Amendments and these Remarks are in reply to the Final Office Action mailed November 27, 2007.

Claims 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Darugar (U.S. Publication No.: 2003/0018661) in view of Vedula (U.S. Patent No.: 6,823,495).

Claims 11, 15 and 19 have been amended to include the feature that “the first XML data and second XML are laid out and structured in different ways”. For this reason, these claims are believed to be novel and non-obvious over the cited prior art.

In light of the above, it is respectfully submitted that all of the claims now pending in the subject patent application should be allowable, and a Notice of Allowance is requested. The Examiner is respectfully requested to telephone the undersigned if he can assist in any way in expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: December 12, 2007
